

CMAXS PMS/SPICS/ABLOG

Introduction of optional function Easy Import/Export

IMC Co.,Ltd
Ship Solution Division
IT System department

Introduction of optional function

Easy Import / Export function

Optional function is provided for CMAXS PMS/SPICS/ABLOG.

This function aim reduction of operational steps for CMAXS user.

Release : At the end of June

We are preparing a release at the end of June.

Monthly Price : USD10.00

Monthly price is USD10.00 / System / vessel.

Operation and Configuration

Headquarters System (office side)

New application is always checking CMAXS mail server.

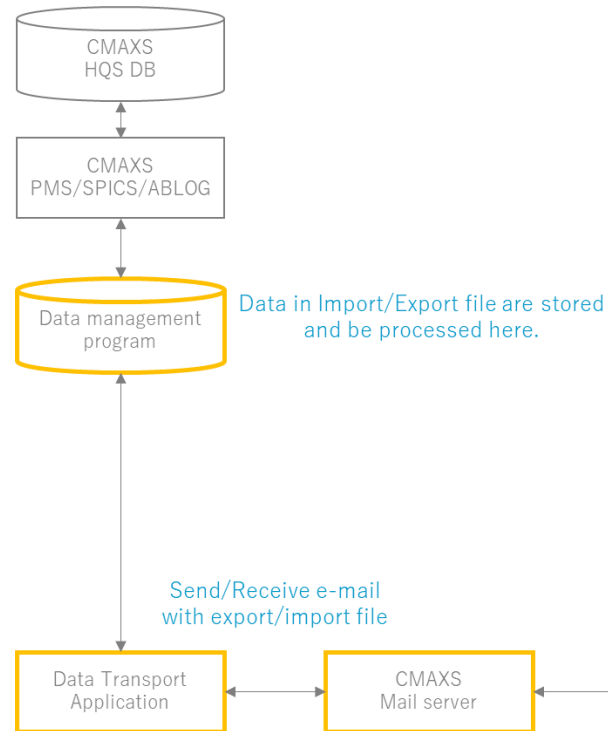

Import operation

* is shown at vessel list in CMAXS program when vessel she have import file is selected.

Import will finish just by pushing *.

Export operation

Export will finish just by pushing “Data Export” button with selecting the vessel.

Shipboard System (Onboard side)

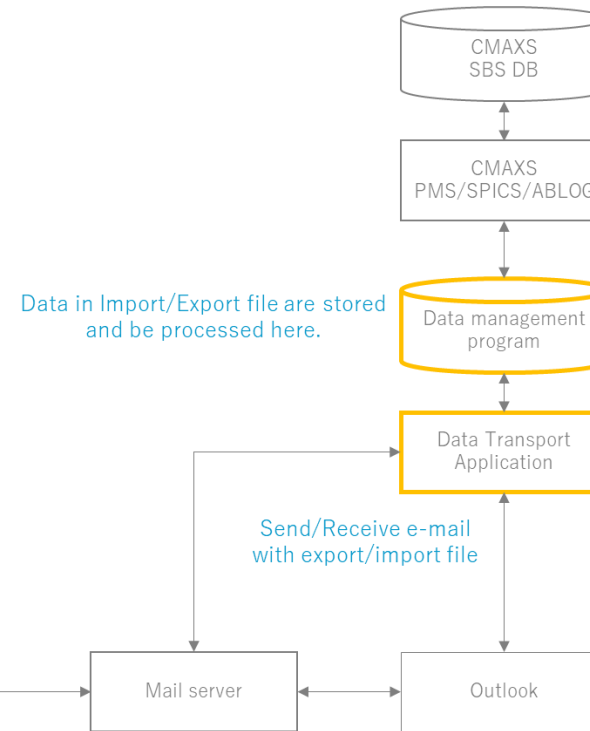

New application is always checking outlook or mail server onboard.

Import

Import will finish just by pushing “Data Import” button.

Export

Export will finish just by pushing “Data Export” button.

※Outlook is not necessary

Precautions

Headquarters System (office side)

Import

PMS/SPICS : Import will be done by each vessel and each department.
ABLOG : Import will be done all vessel and department data at once.

Export

E-mail address of each vessel is required for us to set the information in CMAXS cloud server.
PMS/SPICS : Export will be done by each vessel and each department..
ABLOG : Export is not done at office system.

In common with both side

Adoption by system and by vessel.

Function can be adopted by system.
By vessel, please ask us.

Example of above :

① By system

When “ABLOG and PMS” are used, you can select only “ABLOG” or both of “ABLOG and PMS”.

② By vessel.

In the case you use CMAXS on 10 vessel, and you would like to adopt for some of the vessel, please ask us.

Shipboard System (Onboard side)

Import

PMS/SPICS : Import will be done by each department.
ABLOG : Import is not done onboard.

Export

Setting of e-mail address to CMAXS onboard is required in advance.
PMS/SPICS : You can export after selecting department.
ABLOG : You can export both of department without select department.

Other

.NET4.7 is required for each PC.
CMAXS PC needs to access mail server or mail PC.
We will propose an idea of how to install this function with taking PC configuration onboard into consideration.
