

## How to connect to CMAXS server (HQS).

- ① Install Go-Global (Connection device to CMAXS server)
  - A) Please download “AppControllerAllUsers.zip” from the following URL.  
URL: <https://www.cmaxs-portal.com/index.php/>  
“Support for user” > (Login) > “Each system installer” > “Go-Global installer”
  - B) De-compress, double click "AppController.AllUsers.exe (See Figure 1)" file and install.
